

Ergo Pro Lifter

Ergo Pro Lifter saves your back and it's definitely the best edge saver.

Ergo Pro Lifter helps you to easily lift the ball up from the hole.

The new golf rules allow you to putt with the flagstick left in the hole. Ergo Pro Lifter allows you to easily lift the ball up from the hole with a mechanism attached to the flagstick without the need for bending down.

Ergo Pro Lifter is an idea created by Mika Lähteenmäki, a physical education teacher and golf instructor, whose products also include an ergonomic armrest and a carrying handle.
